

Certified Statement

The Agency considers the information listed below, submitted by Robert A. Bilott, Esq., (R. Bilott) of Taft, Stettinius & Hollister LLP and the Environmental Working Group (EWG), and received by the Agency on the dates indicated, to reasonably support the conclusion of a substantial risk of injury to health or the environment. The information submitted was not corroborative of information already documented in the published scientific literature nor was the Administrator already adequately informed at the time the reports were completed by DuPont and subsequent to that time. DuPont was required to report the information under the authority of section 8(e) of the Toxic Substances Control Act on one of the following three occasions: (1) in May 1981, subsequent to receipt by DuPont of the teratogenicity study results from 3M on March 20, 1981; (2) when DuPont generated data on the transplacental movement of PFOA in rats, which data were reported to EPA on March 16, 1982 and (3) during discovery by Taft, Stettinius & Hollister.

<u>Submitter</u>	<u>Date submitted/date received</u>	<u>Description of document</u>
R. Bilott	March 6, 2001; March 26, 2001; March 31, 2003; April 7, 2003.	Exhibit 13; August 1981 revision of DuPont document dated May 14, 1981, describing results of DuPont blood sampling program. Document is part type-written, part hand-written.
EWG	April 11, 2003;	Exhibit A; same document as above; submitted with EWG letter to EPA requesting action against DuPont for failure to submit information under section 8(e) of Toxic Substances Control Act.
